Innovation Through Collaboration

Agenda

- 09.00** **Registration and poster board display**
- 10:00** **Welcome and agenda**
- 10.10** **Professor Alan Ryder [NUIG]**
"Fluorescence spectroscopy for the analysis of raw materials, cell culture media, and protein variability: the multi- dimensional approach"
- 10.45** **Series of flash presentations**
- 11.30** **Dr Jennifer McManus [Maynooth University]**
"Protein Assembly in Complex Formulations"
- 12.15** **Networking lunch and poster board display**
- 13.30** **Professor Michael Butler [NIBRT]**
"Monitoring cell growth and metabolic state by optical imagery and dielectric spectroscopy"
- 14.15** **Series of flash presentations**
- 14.35** **Associate Director, Paula Meleady [DCU]**
"Application of Advanced Proteomics in Biopharmaceutical Research"
- 15.20** **Tea/Coffee break, poster board display and awarding of prizes**
- 16.00** **Event close**
